Portrait of Tagore by Kosetsu Nosu with Tagore's autographed poem

(Nosu painted 17 frescos based on 17 tales of Buddha-Jatakas  
on the walls of the Mulagandhakuti Vihara at Sarnath.  
He learned fresco at the Kalabhavan at Shantiniketan.)

				<b>1:49:44</b>	

# Zoom Meeting Instructions

## General Instructions:

1. Please join the meeting before door closes at 5:00pm sharp. To avoid last moment glitches, it is strongly recommended to join the meeting 10 minutes before 5pm.
2. Please be reminded that joining zoom meeting using multiple devices nearby from the same location may cause live audio feedback/ echo if microphones are simultaneously on, which may cause interruptions in the program.
3. We need to identify who has logged in so please install zoom, and either sign up for free zoom account or register your name on the logged in device in advance so that Zoom does not display your name by default as device name something like “Samsung”, “Iphone”, etc.
4. Check the functioning of audio, video of your device, ensure its charging etc., prior to the program. Use the camera in landscape mode.
5. It is recommended to use LAN or Wifi if possible, which are supposedly faster compared to 4G and 4G has data packets constraints too. If your connection gets disconnected during the program, there could be delays in re-connecting so please avoid disconnecting until the program is over.
6. Audio/Video/View settings

When you join, Before Start of Program:

**Audio off / Video On / Gallery view;** (Video On will allow to take group photo at 5pm)

Start of Program at 5:00 and during the program:

**Audio off / Video off / SPEAKER View** (Speaker view to watch performers on full screen, Video off will reduce network/system load)

During Ambassador's speech:

**Audio off / Video On / SPEAKER View** (This will allow Ambassador to see the attendees)

End of program: **Audio On / Video On / Gallery View** (Greet/ Speak)

## Additional Instructions for Performers:

1. Check song or instrument or karaoke tracks playback prior to the program.
2. Dance performance: If possible, use the main camera instead of selfie cam of mobile. It will be good if someone can steadily hold the camera to cover the performance or place the camera in such a way that it covers the dancing space optimally.
3. Use LAN or Wifi connection if possible, instead of 4G mobile connection. During tests with 4G, we have seen poor response.
4. Use sufficient lighting that lights up the face. Avoid your position directly under ceiling light. if you have a table lamp then can direct the lamp light towards face with appropriate distance/ intensity.
5. Please follow the program sequence latest version v2.0 and be prepared for your program.
6. Sanjib will announce the name of the next Performer.

When Name is announced: **Audio On / Video On / SPEAKER View**

After Own Performance: **Audio off / Video off / SPEAKER View**

Audio/ Video on/off toggle button appears at the bottom left corner of the Zoom meeting

Speaker Gallery view toggle appears at right top of screen for PC or need to slide the screen on a mobile./

Note: The program will be recorded using Zoom recording feature.
